G635, DTS 7.1 channel, 344 g

ULTIMATE SOUND SCIENCE

Hear enemies sneaking around, special ability cues and everything else all around you. Be fully immersed in the gamescape and hear the entirety of epic soundtracks. The most advanced audio technology and endurance materials combine to deliver expansive cinematic sound. Pro-G™ audio drivers upgraded to 50 mm and DTS Headphone:X 2.0 surround. DTS Headphone:X and other advanced features enabled on PC via Logitech G HUB software. Download at LogitechG.com/downloads create the ultimate sonic experience.

PLAY ADVANCED

Upgraded Pro-G 50 mm drivers are constructed with a woven hybrid mesh that unlocks greater sonic detail, depth, and clarity at any volume. Now, with the increased diameter, Pro-G performs better than ever. Low frequency sounds—like booming explosions and rich soundtracks—are even more full and cinematic. High frequencies—voices, footsteps, shots fired—are incredibly clean and precisely recreated. Hear more of your game than ever.

Surround Beyond 7.1

Experience incredible DTS® Headphone:X 2.0 that performs with greater precision than 7.1 channel surround sound. DTS Headphone:X and other advanced features enabled on PC via Logitech G HUB software. Download at LogitechG.com/downloads Precise and accurate in-game spatial awareness allows you to clearly detect position and distance in a complete 3D soundscape. Hearing your surroundings clearly can be the difference between victory and defeat.

Fully Customizable

With Logitech G HUB gaming software you can personalize LIGHTSYNC RGB lighting, program G-keys with macros and in-game commands, and customize audio preferences with unique profiles for each game and app.

BE HEARD LOUD AND CLEAR

Mic+ 6 mm is a boom mic enhanced for amazingly clear and precise comms. The boom has an indicator LED so you know when your mic is muted. When not in use, the boom mic can be folded back into the headphones making it nearly invisible.

ONE HEADSET, ALL PLATFORMS

One headset for all your devices. G635 mixes audio from up to three devices at once. Choose from PC, mobile and game consoles including Nintendo® Switch™, PlayStation® 4 and Xbox® One. Built for Comfort and Endurance You'll be extremely comfortable, even during the longest gaming sessions with sports mesh padding in the ear cups and headband. G635 is fitted with large-diameter circumaural ear pads which fit completely around the ears and put no direct pressure on soft tissues. The ear cups are removable and hand washable.
